Dear Hiring Manager,

My name is Urve Kriiva, and I am currently studying Frontend Development at Noroff while working in retail at Ahlsell Norge AS.

I am applying for a frontend developer position where I can continue developing my technical and creative skills.

I am passionate about creating responsive and user-friendly websites and enjoy combining design with functionality. Through my studies and personal projects, I have gained experience with HTML, CSS, JavaScript, API integration, GitHub, Figma, and Visual Studio Code.

Some of the projects I have developed include Rainy Days, an online rainwear store using API data, Game Hub, a gaming marketplace website, and a Community Science Museum project focused on responsive design and accessibility. These projects have strengthened both my technical abilities and problem-solving skills.

I consider myself a responsible, motivated, and eager-to-learn person who enjoys new challenges and continuous improvement. I would appreciate the opportunity to further discuss how my skills and enthusiasm can contribute to your company.

Thank you for your time and consideration. I look forward to hearing from you.

Kind regards,
Urve Kriiva
