

Application

February 25, 2024

To Noroff Education AS

I am writing to express my interest in studying front-end development at Noroff School of Technology and Digital Media.

I have been fascinated by web design and I have spent last year trying to learn HTML, CSS and JavaScript independently. The journey has been both interesting and challenging, but I am eager to deepen my knowledge and refine my skills.

The online program offered at Noroff aligns perfectly with my current commitments and provides the flexibility I need to balance my studies effectively. I am particularly excited about the opportunity to learn from experienced professionals and collaborate with like-minded individuals to foster growth and creativity in my work.

I believe that Front-end Development is a perfect blend of technical skill and artistic expression, allowing me to turn my creative ideas into interactive and engaging digital experiences. I am confident that this program will provide me with the tools and expertise I need to succeed in this dynamic and ever evolving field.

Thank you for considering my application. I look forward to the opportunity to further discuss my qualifications and aspirations with you.

Sincerely,

Urve Kriiva
